

**Assembly instructions:**

- 1) Loosen the exhaust in the rear.
- 2) Place the mounting piece -e- with the points B up against the left outside of the chassis (see photo 1) on the already provided holes.  
The points C and C' are fitted against the rear of the body work (see photo 5).  
The mounting piece -h- is placed on the inner side of the chassis matching over the holes of the other mounting piece. Affix the bolts but do not tighten anything.  
On the right side place the mounting piece -f- with B against the outside of the chassis (see photo 2) and the points C and C' also against the rear side of the bodywork (see photo 4).  
Place the mounting piece -g- in the chassis from the inside and fitting over the holes in mounting piece -g- in the chassis on the inside and fitting over the holes in the mounting piece -f-. Affix the bolts but do not tighten anything.  
Affix the bolts with their washers at points C' (see photo 3).
- 3) Make a cut-away in the centre of the bumper, measuring 160 x 10 mm.
- 4) Position the tow bar with the points A and A' between the mounting pieces -e- and -f- (see photo 7). Affix the bolts and tighten everything firmly.
- 5) Assemble (\*) and tighten firmly.

**Composition**

- |                       |             |
|-----------------------|-------------|
| 1 towbar 1080         | (*)         |
| 1 ball T43/1000       | (*)         |
| 4 bolts M12-35        | (A)         |
| 2 bolts M12-30 + nuts | (A')        |
| 2 bolts M12-30        | (B-B')      |
| 4 bolts M10-35 + nuts | (C-C')      |
| 4 bolts M10-25        | (B'-C)      |
| 3 washers 40-12-4     | (A-A'-*)    |
| 8 security washer M12 | (B-B'-C-C') |
| 8 security washer M10 | (A-A')      |
| 1 mounting piece (-e) | (A-A')      |
| 1 mounting piece (-f) | (B-C)       |
| 1 mounting piece (-g) | (B-C)       |
| 1 mounting piece (-h) | (*)         |
| 1 safety shackle      |             |

**Note**

Please consult your car dealer or owners manual for the maximal permissible towing mass.  
Remove any bitumen coating on the fastening position for the tow bar.  
When drilling, be careful not to damage any brake lines, electrical wiring or fuel lines.
